

Sprint 4 Report:

Actions to Stop Doing:

- Not push code with lint errors
 - Issue: Style and lint errors not fixed before making PRs, carrying them into the main branch.
 - Solution: Fix lint errors before making the pull request.
- Under estimate hours
 - Issue: Tasks take longer than planned for in the sprint planning meeting.
 - Solution: Make a more generous estimate to better account for time and task division.

Actions to Start Doing:

- Pull from main more frequently to reduce merge conflicts when pushing code.
 - Issue: A lot of merge conflicts came up since we did not always incorporate changes to main while working on different branches.
 - Solution: Merge main into a separate branch every once in a while to ensure coherence.

Actions to Keep Doing:

- Have productive meetings with set agendas

Work Completed/Not Completed

- Complete:
 - User can see tweets related to that stocks.
 - As a user, I should be able to access the application from any computer so that they can access their account whenever they want.
 - As a user, I should be able to go to the stock viewing page from portfolio page.
- Not Completed:
 - The User would like to have the social sentiment of a stock through a smiley/sad face in order to assist their investment decision.
 -

Rate:

13 User Story Points completed / 17 Total User Story Points = 0.76 User Story Points completed / Total User Story Points
