

Definition of Done for subtasks:

- Test code for any new methods is added.
- All automated tests pass.
- There are no compile-time or runtime warnings/errors.
- All new methods are documented.
- Code is reviewed and tested by 2 other developers.
- Code follows appropriate coding style guidelines

Definition of Done for user stories:

- All subtasks are considered done
- All automated tests pass
- The feature added actually does what the user story says
