Sprint 3 Report:

Actions to Stop Doing:
- Stop being late to meetings

Actions to Start Doing:
- Update Jira more frequently - still needs work
  - Issue: We often forget to update Jira which impacts communication as well as the accuracy of the burn up chart.
  - Solution: Update Jira as soon as the task is complete.

Actions to Keep Doing:
- Efficiently using git/git branches to avoid conflicts and errors.
  - The system of using branches and careful testing by at least two people has avoided conflicts and bugs on the main branch.
- Style consistency and thorough documentation.
  - For the most part, the style is coherent and there are comments and documentation explaining the functionality and flow.

Work Completed/Not Completed
- Complete:
  - As a user, I should be able to add and remove stocks from my portfolio as I choose and I can maintain the portfolio of my choice.
  - As a user, I now be able to see the details for a particular stock through my portfolio.
  - As a user, I should be able to like and comment on a stock to voice the preferences/predictions so that I can engage with other users.
  - As a user, I should be able to search up a stock, see a basic analysis and add it to their portfolio so that I can make an informed decision.
  - As a user, I should be able to access the application from any computer and I can access my account whenever I want.
  - As a user, I should be able to see stock news on the dashboard.
  - As a user, I should be able to get stocks that match a certain criteria.
- Not Completed:
  - Portfolio and stock viewer connection
